CAREER OBJECTIVE:

I aim to contribute my expertise in infrastructure and production support to a learning-centric, distinguished organization. I specialize in the comprehensive design, deployment, and ongoing maintenance of highly available, reliable, and scalable platforms that support mission- and business-critical application deployment.

PROFESSIONAL EXPERIENCE:

Company: NCR ATLEOS Corporation India Pvt Ltd, Chengalpattu.

Position 1: Customer Care Executive in TECH MAHINDRA COMPANY (JUNE 2020 to JAN 2021)

Position 2: Testing Engineer in New Product Implementation (MAY 2021 to DEC 2022)

Position 3: Manufacturing Engineer (DEC 2022 to till now)

ROLES & RESPONSIBILITIES

- ❖ Promptly and professionally respond to customer questions, complaints, and feedback via various channels (phone, email, live chat, social media).
- ❖ Maintain a deep and up-to-date understanding of the company's products, services, policies, and pricing to provide accurate information.
- ❖ BOM (Bill of Material) Management are E-BOM (Engineering BOM), M-BOM (Manufacturing BOM) and F-BOM (Featured BOM).
- ❖ Responsible for managing modifications to the BOM structure, ensuring its accuracy to prevent production line disruptions and mitigate adverse cost impacts. This role involves collaboration with senior engineers to guarantee the precision and completeness of all BOM data.
- ❖ Execute a BOM auditing process aimed at improving the accuracy of BOM data, minimizing errors, and ultimately enhancing the effective management of company expenditure.
- ❖ Collaborate with Engineering, Manufacturing, and Supply Chain teams to validate and synchronize BOM data across all relevant organizational functions.
- ❖ Requested to process the DR (Design Release) related MUV (Material Usage Variance).
- ❖ Preparing AMCD (Assembly Method of Control Document) against, assembly process and sequence.
- ❖ Maintain assembly processes according to the Standard Operating Procedures (SOPs) defined within the MIDAS (Manufacturing Instruction Data Acquisition System).

- ❖ Support the analysis and optimization of cycle time and line balancing for ATM, Retail, and.
- ❖ Experience with working knowledge of ORACLE applications ERP R12.
- ❖ Structuring and Analyzing BOM for NPI products and escalating issues to Engineers through JIRA & RFC (Request for Change).
- ❖ To implementation of DR (Development or Design Release).
- ❖ To implement the LTO (Line Try-Out) process to check the possible pros & cons in real time during assembly process.
- ❖ Providing new ideas (KAIZEN's) for improving production, improving the quality of the products, improving safety measures and improving the infrastructure of the plant.
- ❖ The New Product Implementation (NPI) team assembled the new units, performed acceptance testing, and addressed issues with the new build ATMs.
- ❖ FBL (FEATUIZED BILL LISTING) is utilized to recognize customer features in the list on the ATM Machine prior to testing.
- ❖ The modules tested for ATM include the SRU (Scalable Recycle Unit and SCPM (Scalable Check Processing Module).
- ❖ I can identify and resolve any issues that may arise during testing of an ATM machine.
- ❖ External testing for ATM machines identifies the issues.
- ❖ Conduct a test to identify any damage by racking in and racking out.

EDUCATION QUALIFICATION:

B.E – Computer Science Engineering

P.S.V College of Engineering and Technology, Krishnagiri

CGPA – 7.0%

Year - 2019

HSC – Math- Bio

Don Bosco Higher Secondary School, Jolarpet

Percentage – 76.6%

Year - 2015

SSLC

Government High School, Jangalapuram

Percentage – 83%

Year – 2013

COLLEGE PROJECT:

❖ *Implementation Of Accurate Data Localization In Noisy Environments Using Fuzzy Grid Prediction Scheme*

To locate the accurate node with short distance in noisy environment for transferring data using fuzzy logic-based approach.

TECHNICAL SKILLS:

- ❖ **Operating Systems – Linux (CENTOS, RHEL)** and Microsoft Windows Servers Testing Software: Manual Testing, selenium.
- ❖ **Production software:** PLM (Merlin) ENOVIA, ETQ, ERP, MIDAS(SOP), JIRA.
- ❖ **Middleware** – Apache HTTP Server, Apache Tomcat and WebLogic Server
- ❖ **Cloud** - AWS Cloud Services (EC2 CloudFormation, ALB, ASG, S3, CloudWatch
- ❖ **Continuous Integration and Delivery** - Jenkins, GitLab, Artifactory
- ❖ **Containerization and Orchestration** - Docker
- ❖ **Databases** – Oracle, MySQL and PostgreSQL
- ❖ **Scripting** - Shell, PowerShell, Bash, groovy
- ❖ **MS Office:** Excel, word, PowerPoint.

PROFESSIONAL ACHIEVEMENTS:

KAIZEN Certification in Gold category to fixture development for standardization of COA label pasting.

CERTIFICATIONS:

- AWS Certified Solutions Architect - Associate

DECLARATION:

The information I have provided above is accurate and complete to the best of my knowledge.

Place: Chennai

Date: 13-DEC-2025

Yours sincerely

(SATHISHKUMAR)
